Springer International

Pflügers Archiv · European Journal of Physiology

Founded in 1868 as „Pflügers Archiv für die gesamte Physiologie des Menschen und der Tiere" by *E. F. W. Pflüger.* Edited by *M. Verworn, E. Abderhalden, A. Bethe, R. Höber, A. v. Muralt, H. Rein* et al.

Published: Vol. 1–29 (1876) Cohen und Sohn, Bonn; Vol. 30–92 (1901) E. Strauß, Bonn; Vol. 93–170 (1917) M. Hager, Bonn; since Vol. 171 (1918) Springer, Berlin.

Since 1920 Pflügers Archiv has included: „Archiv für Physiologie" (Archiv für Anatomie und Physiologie, Physiologische Abteilung). Founded and edited by Johannes Müller, E. du Bois-Reymond, W. v. Waldeyer-Hartz et al. 1877–1914. Veit und Co., Leipzig, since 1915, Vereinigung Wissenschaftlicher Verleger, afterwards Walter de Gruyter, Berlin.

Copyright

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract or as part of a published lecture, review, or thesis); that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors, if any, as well as by the responsible authorities at the institute where the work has been carried out; that, if and when the manuscript is accepted for publication, the authors agree to automatic transfer of the copyright to the publisher; and that the manuscript will not be published elsewhere in any language without the consent of the copyright holders.

All articles published in this journal are protected by copyright, which covers the exclusive rights to reproduce and distribute the article (e.g., as offprints), as well as all translation rights. No material published in this journal may be reproduced photographically or stored on microfilm, in electronic data bases, video disks, etc., without first obtaining written permission from the publisher.

The use of general descriptive names, trade names, trademarks, etc., in this publication, even if not specifically identified, does not imply that these names are not protected by the relevant laws and regulations.

While the advice and information in this journal is believed to be true and accurate at the date of its going to press, neither the authors, the editors, nor the publisher can accept any legal responsibility for any errors or omissions that may be made. The publisher makes no warranty, express or implied, with respect to the material contained herein.

Special regulations for photocopies in the USA

Photocopies may be made for personal or in-house use beyond the limitations stipulated under Section 107 or 108 of U.S. Copyright Law, provided a fee is paid. This fee is US$ 0.20 per page, or a minimum of US$ 1.00 if an article contains fewer than five pages. All fees should be paid to the Copyright Clearance Center, Inc., 21 Congress Street, Salem, MA 01970, USA, stating the ISSN 0031-6768, the volume, and the first and last page numbers of each article copied. The copyright owner's consent does not include copying for general distribution, promotion, new works, or resale. In these cases, specific written permission must first be obtained from the publisher.

Contents of volume 413

This volume contains a supplement with the Abstracts of the 67th Meeting (Joint Meeting) of the Deutsche Physiologische Gesellschaft and the Israel Physiological and Pharmacological Society, 5–10 March 1989, Jerusalem R1–R60

No. 1 (pp 1–100) published November 30, 1988
No. 2 (pp 111–208) published December 20, 1988
No. 3 (pp 209–328) published January 18, 1989
No. 4 (pp 329–446) published February 8, 1989
No. 5 (pp 447–570) published March 23, 1989
No. 6 (pp 571–690) published April 1989

Abstracts of the XXXIX Congresso Nazionale of the Società Italiana die Fisiologia, 23–25 September 1987, San Remo S1–S22

Akasu T: Adrenaline inhibits muscarinic transmission in bullfrog sympathetic ganglia 616
Akasu T → Hasuo H 206
Alexander SJ, Cooper KE, Veale WL: Sodium salicylate: alternate mechanism of central antipyretic action in the rat 451
Allen DG → Lee JA 83
Alloatti G → Levi R et al 685
Alvarez O → Villarroel A et al 118
Arheden H, Arner A, Hellstrand P: Calcium sensitivity and energetics of contraction in skinned smooth muscle of the guinea pig *taenia coli* at altered pH 476
Armstrong CM → Castellano A et al 644
Arner A → Arheden H et al 476
Arts T → van Bilsen M et al 167
d'Ascanio P → Manzoni D et al 580

Baker MA, Turlejska E: Thermal panting in dehydrated dogs: effects of plasma volume expansion and drinking 511
Banfić H → Salihagić A et al 190
Barnes CD → Manzoni D et al 580
Bassingthwaighte JB → King RB 336
Baum BJ → He X et al 505
Baverel G → Martin M et al 217
Beck F-X → Sauer M et al 651
Becker BF → Newman WH et al 1
Bettoni G → Conte-Camerino D et al 105
Bidet M → Merot J et al 51
Bivet M, Cognard C, Raymond G: The slow inward calcium current is responsible for a part of the contraction of patch-clamped rat myoballs 316
Bokvist K → Smith PA et al 441
Bonjour JP → Caverzasio J et al 96
Borges R, Carter DV, Grafenstein H von, Halliday J, Knight DE: Activation of sodium channels is not essential for endothelin induced vasoconstriction 313
Bottà G → Cremaschi D et al 102
Bourret C → Tabti N et al 395
Boyett MR, Moore M, Jewell BR, Montgomery RAP, Kirby MS, Orchard CH: An improved apparatus for the optical recording of contraction of single heart cells 197
Bozem M, Henquin J-C: Glucose modulation of spike activity independently from changes in slow waves of membrane potential in mouse B-cells 147
Böhmer G → Schmid K et al 23
Brechtelsbauer H → Hohenfellner RM et al 673
Bregestovski PD, Printseva OY, Serebryakov V, Stinnakre J, Turmin A, Zamoyski V: Comparison of Ca^{2+}-dependent K^+ channels in the membrane of smooth muscle cells isolated from adult and foetal human aorta 8
Brûlé G → Fournier F et al 682
Brun-Marmillon J → Falcón J et al 93
Bryant SH → Conte-Camerino D et al 105
Brzezinska Z → Nazar K et al 429
Buchberger A → Wiesinger G et al 667

Callahan SM → Creed KE 299
Carbone E, Lux HD: ω-Conotoxin blockade distinguishes Ca from Na permeable states in neuronal calcium channels 14
Carmeliet E → Nilius B et al 234, 242
Carter DV → Borges R et al 313
Casteels R → Kanmura Y et al 153
Castellano A, López-Barneo J, Armstrong CM: Potassium currents in dissociated cells of the rat pineal gland 644
Catantchik ZI → Nitschke R et al 559
Caverzasio J, Rizzoli R, Martin TJ, Bonjour JP: Tumoral synthetic parathyroid hormone related peptide inhibits amiloride-sensitive sodium transport in cultured renal epithelia 96
Champion MP → Cook DI et al 67
Chen G → Komori K et al 359
Chinn K, Narahashi T: Temperature-dependent subconducting states and kinetics of deltamethrin-modified sodium channels of neuroblastoma cells 571
Chuang J → Lin MT et al 528
Claassen H → Kayar SR et al 343
Clapp LH, Vivaudou MB, Singer JJ, Walsh Jr JV: Substance P, like acetylcholine, augments one type of Ca^{2+} current in isolated smooth muscle cells 565
Claustrat B → Falcón J et al 93
Clusin WT → Lee H-C 225
Cognard C → Bivet M et al 316
Cokelet GR → Thompson TN et al 372
Collin J-P → Falcón J et al 93
Conte Camerino D, De Luca A, Mambrini M, Vrbovà G: Membrane ionic conductances in normal and denervated skeletal muscle of the rat during development 568
Conte-Camerino D, Mambrini M, DeLuca A, Tricarico D, Bryant SH, Tortorella V, Bettoni G: Enantiomer of clofibric acid analogs have opposite actions on rat skeletal muscle chloride channels 105
Cook DI → Poronnik P et al 90
Cook DI, Day ML, Champion MP, Young JA: Ca^{2+} not cyclic AMP mediates the fluid secretory response to isoproterenol in the rat mandibular salivary gland: Whole-cell patch-clamp studies 67
Cooper KE → Alexander SJ et al 451
Coumans WA → Snoeckx LHEH et al 303
Coumans WA → van Bilsen M et al 167
Cox HM, Cuthbert AW: Neuropeptide Y antagonises secretagogue evoked chloride transport in rat jejunal epithelium 38
Creed KE, Callahan SM: Prostaglandins and neurotransmission at the guinea pig and rabbit urinary bladder 299
Cremaschi D, Meyer G, Bottà G, Rossetti C: Permanent uncoupling of Na^+/H^+ from Cl^-/HCO_3^- exchange under some steady state condition in rabbit gallblaadder 102
